

Meetings with Research Teams recommended for funding under the WIB Programme.

Recently, Łukasiewicz - PORT, as a Managing Entity of the Virtual Research Institute Programme, took part in meetings with representatives of Scientific Units and Research Teams whose projects were recommended for funding under the WIB Programme.

The meetings were held in Kraków, at the headquarters of the Jagellonian Centre for Experimental Therapeutics (Adevasco project) and in Poznań, at the Institute of Bioorganic Chemistry of the Polish academy of Sciences (Intercept project). The purpose of these meetings was, i.a., to discuss the principles of implementation of Research Taks.

More information on the projects recommended for funding can be found in the Research Teams tab.
